GitHub: <https://github.com/CrimsonCode-X>

EDUCATION

Bachelor of Technology in Computer Science, GLA University, Mathura, 7.03

June 2028

Intermediate, Kanha Makhan Public School, Mathura, 77.7%

May 2024

High School, Kanha Makhan Public School, Mathura, 84.4%

May 2022

PROJECTS

AI Code Reviewer

- Developed an AI-powered code review application capable of analyzing code and providing intelligent feedback and improvement suggestions
- Integrated AI functionalities to identify coding issues and optimization opportunities
- Applied concepts of API integration, frontend development, and problem-solving in a real-world project environment
- Maintained project workflow and version control using GitHub

• Link: <https://github.com/CrimsonCode-X/AI-Code-Reviewer>

Library Management System (Python)

- Developed a Python-based Library Management System to manage and organize book records efficiently
- Implemented functionalities such as adding, issuing, returning, and searching books
- Utilized file handling for persistent data storage and retrieval
- Applied modular programming principles to improve code organization and maintainability

• Link: <https://github.com/CrimsonCode-X/LIBRARY-MANAGEMENT-SYSTEM>

Zomato Data Analysis

- Performed exploratory data analysis on Zomato restaurant dataset to uncover insights related to ratings, pricing, cuisines, and customer preferences
- Applied data cleaning, analysis, and visualization techniques to interpret restaurant trends and user behavior
- Strengthened practical understanding of data analytics and business insights generation

• Link: <https://github.com/CrimsonCode-X/Zomato-Data-Analysis>

SKILLS

Technical

Languages: Java, Python, C

Web Technologies: HTML, CSS

Databases: SQL, MongoDB

Tools: Tableau, GitHub

Professional

Analytical Thinking

Problem-Solving

Effective Communication

Adaptability & Quick Learning

PROFESSIONAL ACHIEVEMENTS/ INSIGHTS

- Completed Virtual Job Simulation by Deloitte Australia on Forage
- Completed Product Management Virtual Experience Program by Electronic Arts on Forage
- Completed Quantitative Research Virtual Experience Program by J.P. Morgan on Forage
- Earned SQL Certifications (Basic, Intermediate, Advanced) from HackerRank
- Completed Programming Certifications in Python, C, Java, and CSS from HackerRank
- Achieved English Proficiency Certification from EF SET

CO-CURRICULAR ACTIVITIES

- Attended multiple technical workshops to enhance practical knowledge and industry exposure
- Participated in college-level events, demonstrating active involvement beyond academics

DECLARATION

I hereby declare that all the above mentioned information is true and correct to the best of my knowledge.
